We manufacture  
your component –  
*customized & innovative.*

Each part matters.

**[boparts-solutions.com](https://boparts-solutions.com)**

Excellence  
is more than  
*the sum of its parts.*

## Welcome at bo parts *solutions*

We are your agile partner for the production of high-quality interior components.

Thanks to our comprehensive technological expertise and the constantly expanding range of equipment, we can offer you flexible and tailor-made solutions for your specific project requirements and multitude of variants.

Whether it's prototyping, warehousing, manufactory and series production or on-time delivery: We are reliably at your side with dedicated specialists and competent innovation partners and bring your individual component variants in guaranteed automotive standard quickly and safely onto the road.

## Technology Competence from the Automotive Expert

Our modern machinery includes all standard market technologies for the manufacturing and the processing of your components. Highly committed and multi-competent specialists manufacture your component with the greatest care.

### Technologies Overview:

- › Thermoforming & Laminating
- › PU Foaming
- › Joining (Welding, Gluing, mechanical)
- › Trimming (Punching, Water Jet, Milling)
- › Airbag Weakening
- › Silicone Processing
- › Parts assembly

## bo parts Short Facts

### bo parts Foundation

Perceived partner for automotive and non automotive customers for production of Prototype Parts, Serial Parts & Service Parts

### ~ 70 Employees

Many years of experience and qualified know-how in Project Management, Technology Knowledge & Flexible Production

### Quality Management

Certified acc.  
DIN EN ISO 9001:2015  
IATF 16949:2016  
CCAP Certification

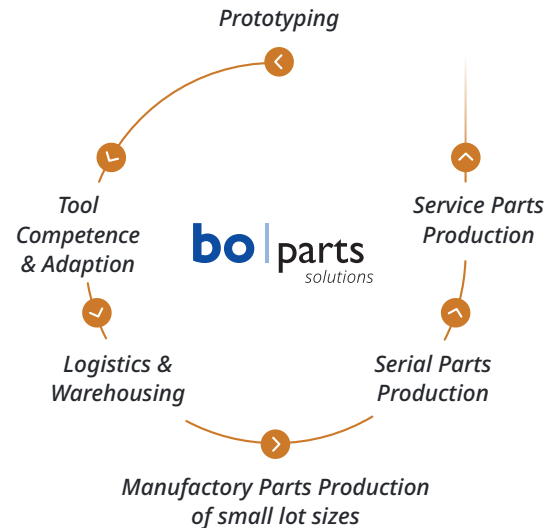

### Company Facts

Production Space 6,000 m<sup>2</sup>,  
Warehouse Space 10,000 m<sup>2</sup>,  
about 4.000 warehoused  
and managed tools,  
TimeLine-ERP System

## bo parts Range of Services

We accompany you efficiently, solution-oriented and safely over the entire life cycle of your product.

## Our Values – Your Advantages

Due to our many years of experience in parts production, we can offer you a comprehensive and efficient complete service. Benefit from our competencies, so that you can concentrate fully on your core business.

### Advantages

**Maximum flexible production**

**Living reliability**

**Clear focus on the quality of your components**

**Fast solution finding and realization of your requirement**

**Guaranteed automotive standard**

**Consistent focus on innovation & sustainability**

**Takeover of the entire logistic process**

**Handling and warehousing for tools and components**

## Innovation & Sustainability

We live our responsibility for a sustainable future and, together with our innovation partners, set new standards in the development of interior components and the processing of alternative materials.

**TESONA®**  
Sensors & Engineering

Smart Heating Systems for high energy efficiency.

**bol**systems  
Natural Fiber Systems

Specialist and know-how provider for **natural fiber composites**, which are characterized in particular by CO<sub>2</sub> neutrality and low component weight.

**NABORE®**  
NATURAL BONDED RESOURCES

The innovative **upcycling technology** that turns leather scraps into recyclable new materials.
